1- Functional Requirements For Each Module:

Admin's Portal:

1- Module 1: Manage Employees:

Add Employee

Edit Existing Employees

Delete Existing Employees

Delete All Employees

Check Assigned Admin to Employee

2- Module 2: Manage Discounts:

Add Discounts

Edit Existing Discounts

Delete Existing Discounts

Delete All Discounts

Check Discounts with Product Details

3- Module 3: Manage Orders:

Add Orders

Edit Existing Orders

Delete Existing Orders

Delete All Orders

Check Orders Details

Check Today's Orders

Check Orders from Last Month

4- Module 4: Manage Products:

Add Products

Edit Existing Products

Delete Existing Products

Delete All Products

Check Average Price of Categories

Check Less Remaining Products

Check Total Sales for Products

Check Total Products in Categories

5- Module 5: Manage Suppliers:

Add Supplier

Edit Existing Supplier

Delete Existing Supplier

Delete All Supplier

Check Products Supplied

Check Loyal Supplier

Check Active Supplier

6- Module 6: Admin's Dashboard:

All Admin Functionality Buttons including Logout

Admin Name, Email , Phone Details

Employee's Portal:

7- Module 7: Manage Inventory:

Add Inventory

Edit Existing Inventory

Delete Existing Inventory

Delete All Inventory Items

Check Stock with less than 10 items

Check All Inventory Details

8- Module 8: Manage Orders(Employee):

Add Orders

Edit Existing Orders

Delete Existing Orders

Delete All Orders

Check Processing Orders

Check Pending Orders

Check Total Pending Orders

Check Orders from Last Month

9- Module 9: Manage Products(Employee):

Add Products

Edit Existing Products

Delete Existing Products

Delete All Products

Check Discounted Products

10- Module 10: Employee's Dashboard:

All Employees Functionality Buttons including Logout

Employee Name, Email , Phone Details

Customer's Portal:

11- Module 11: Place Orders:

Add Products into cart

Select Products by searching from Categories

Adjust Quantity of Products

Remove Items from Cart

Checkout Functionality

12- Module 12: Payment:

Select Payment Method

Enter Credit Card Details

Enter Cash

Confirm Payment

13- Module 13: View Products:

Search the Product Id

Select Products by searching from Categories

Check Details for each products

14- Module 14: View Discounts:

Seach Products

Sort Them by Their Discounts

15- Module 15: View Orders:

Customer can check their Orders

All the Order details Shown.

Check Status of Orders

16- Module 16: Provide Feedback:

Select Feedback Type

Give Comments

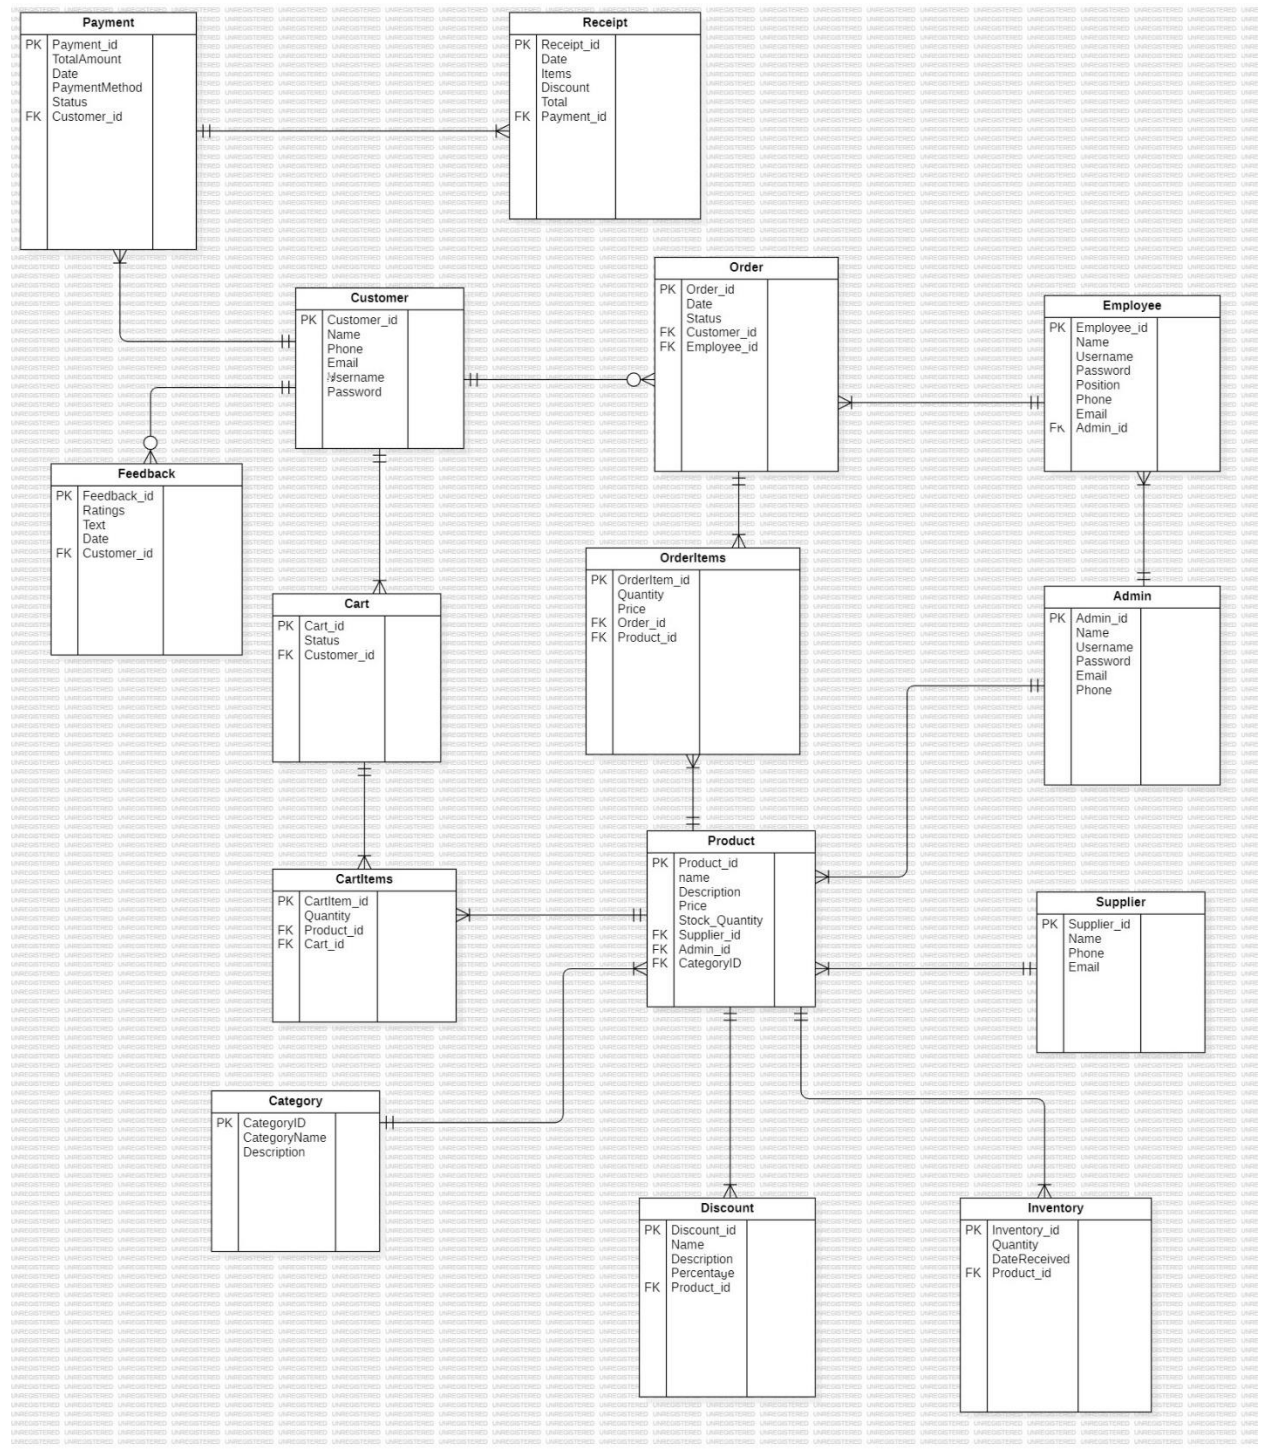

Give ratings from 1 to 5

17- Module 17: Customer's Dashboard:

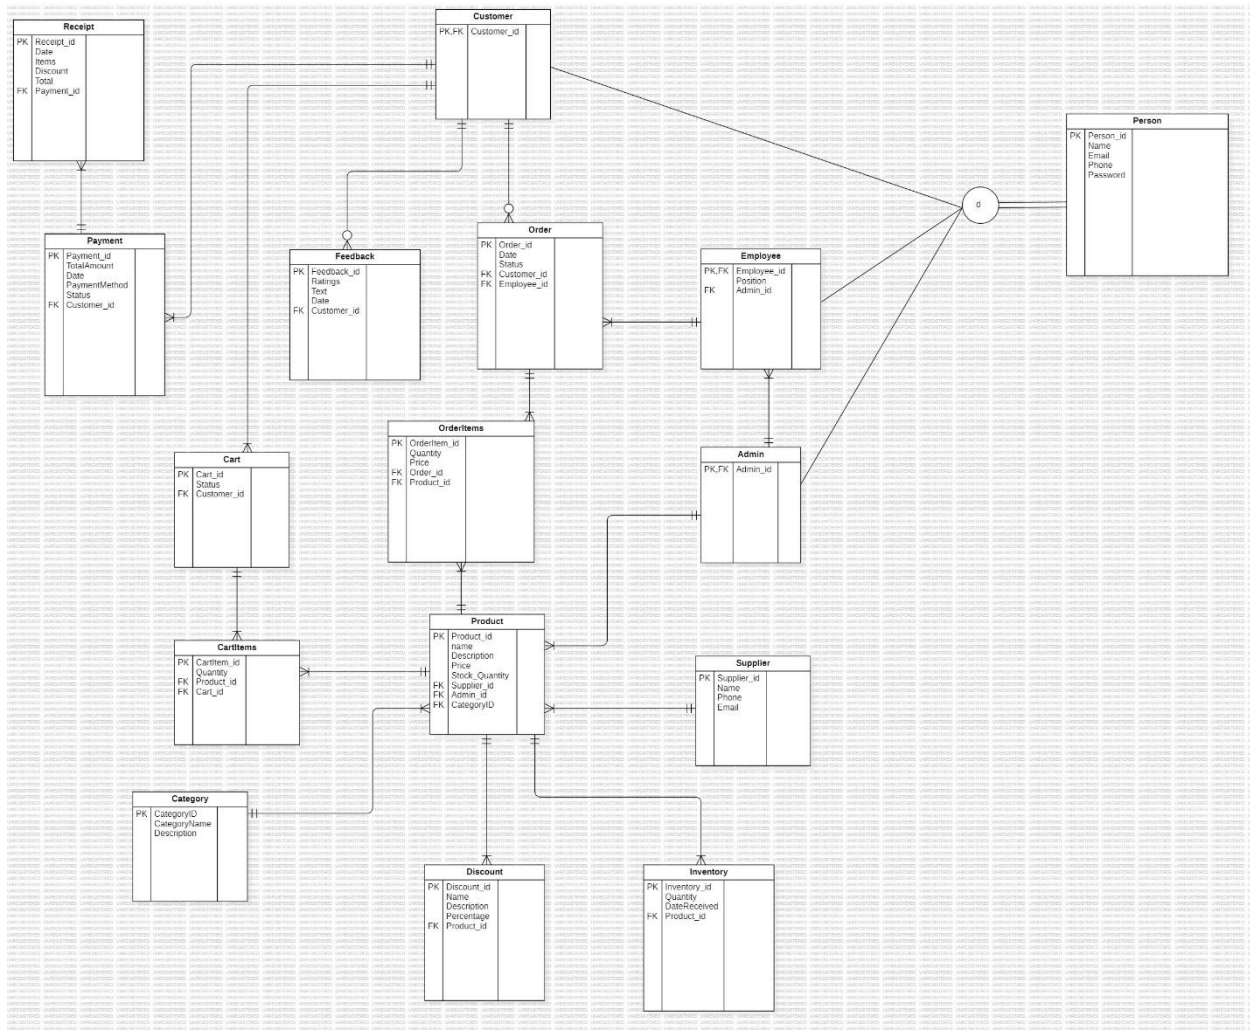

All Customers Functionality Buttons including Logout

Customers Name, Email , Phone Details

2- ERD:

3- EERD:

4- Check Normalization:

All the inserted tables are in 3NF already.

5- User Documentation And Help:

This user documentation provides a comprehensive guide to navigating and using the various modules within the CMS (Content Management System). The CMS is divided into three main portals:

- i Admin's Portal
- ii Employee's Portal
- iii Customer's Portal

Admin's Portal:

The Admin's Portal consists of six main modules:

1. Manage Employees: Allows the admin to add, edit, and delete employee details. It also provides the functionality to check the assigned admin to each employee.
2. Manage Discounts: Enables the admin to add, edit, and delete discounts, as well as to view discount details along with associated product information.
3. Manage Orders: Provides functionalities to add, edit, delete, and view order details. Admins can also check today's orders and orders from the last month.
4. Manage Products: Allows the admin to add, edit, delete, and view product details. The module also offers functionalities such as checking average prices, remaining stock, total sales, and total products in each category.
5. Manage Suppliers: Provides functionalities to add, edit, delete, and view supplier details. Admins can also check the products supplied, loyal suppliers, and active suppliers.
6. Admin's Dashboard: This module provides access to all admin functionalities, including logout. Admin details such as name, email, and phone number are also displayed.

Employee's Portal:

The Employee's Portal consists of three main modules:

7. Manage Inventory: Allows employees to add, edit, delete, and view inventory details. It also includes functionalities to check stock with less than 10 items and view all inventory details.
8. Manage Orders (Employee): Provides functionalities to add, edit, delete, and view employee-specific order details. Employees can also check processing orders, pending orders, total pending orders, and orders from the last month.
9. Manage Products (Employee): Allows employees to add, edit, delete, and view product details. They can also check discounted products.

Customer's Portal:

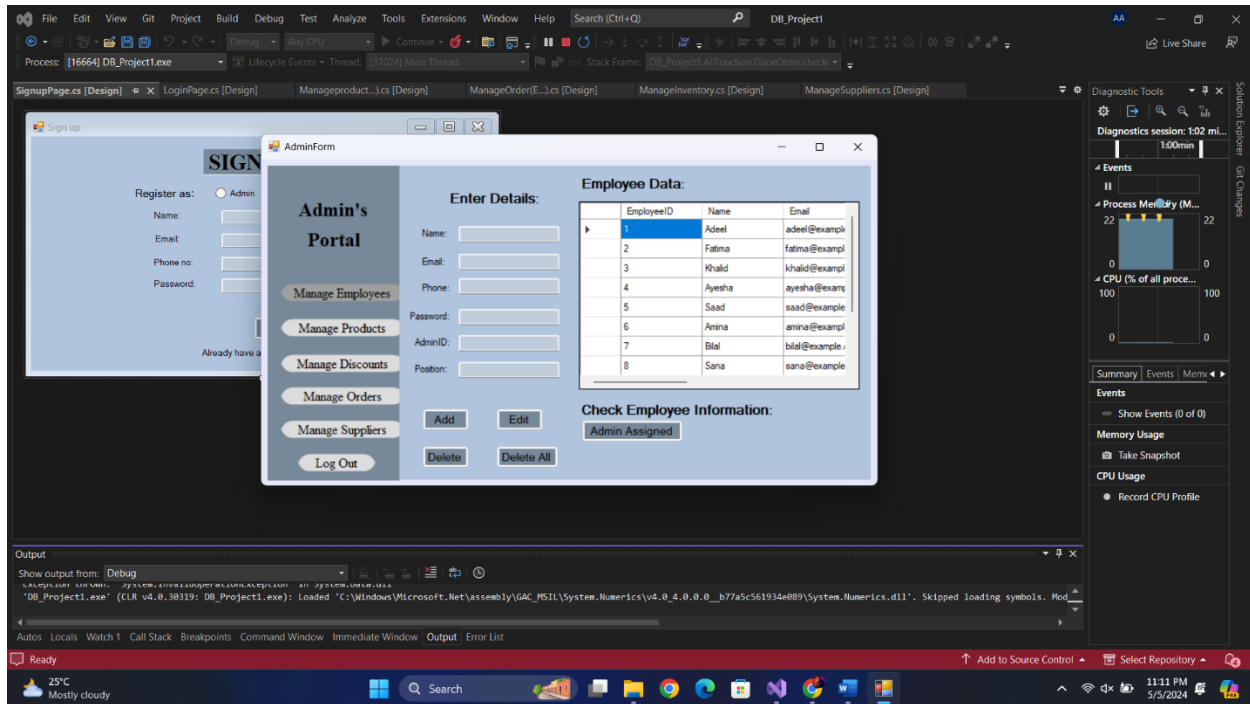

The Customer's Portal consists of five main modules:

10. Place Orders: Allows customers to add products to the cart, adjust quantities, remove items, and proceed to checkout.
11. Payment: Provides options to select payment methods, enter credit card details or cash, and confirm payment.
12. View Products: Allows customers to search products by ID or category, view product details, and sort them by discounts.
13. View Discounts: Enables customers to search for products and sort them by discounts.
14. View Orders: Provides functionalities to check order details, view order status, and provide feedback on products and services. Customers can also access their dashboard to view personal details and logout.
- 15 Provide Feedback: Customer can provide feedback on the products.

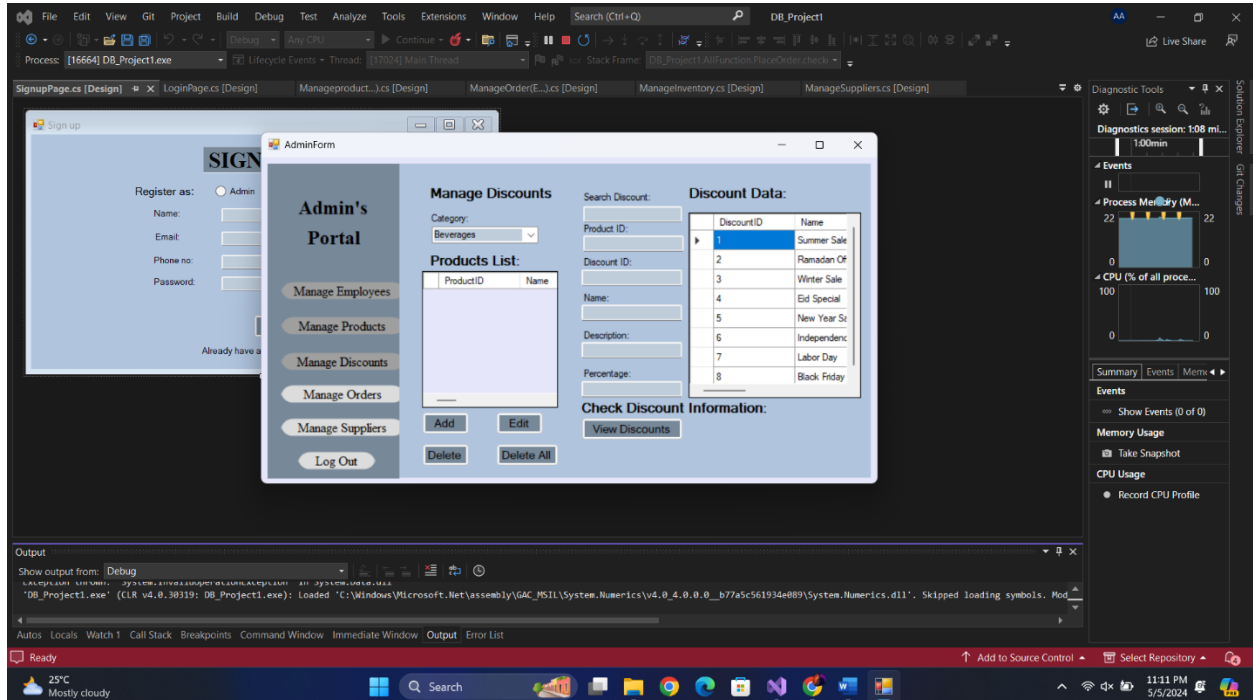

6- Screen Shots of Project:

Admin's Portal:

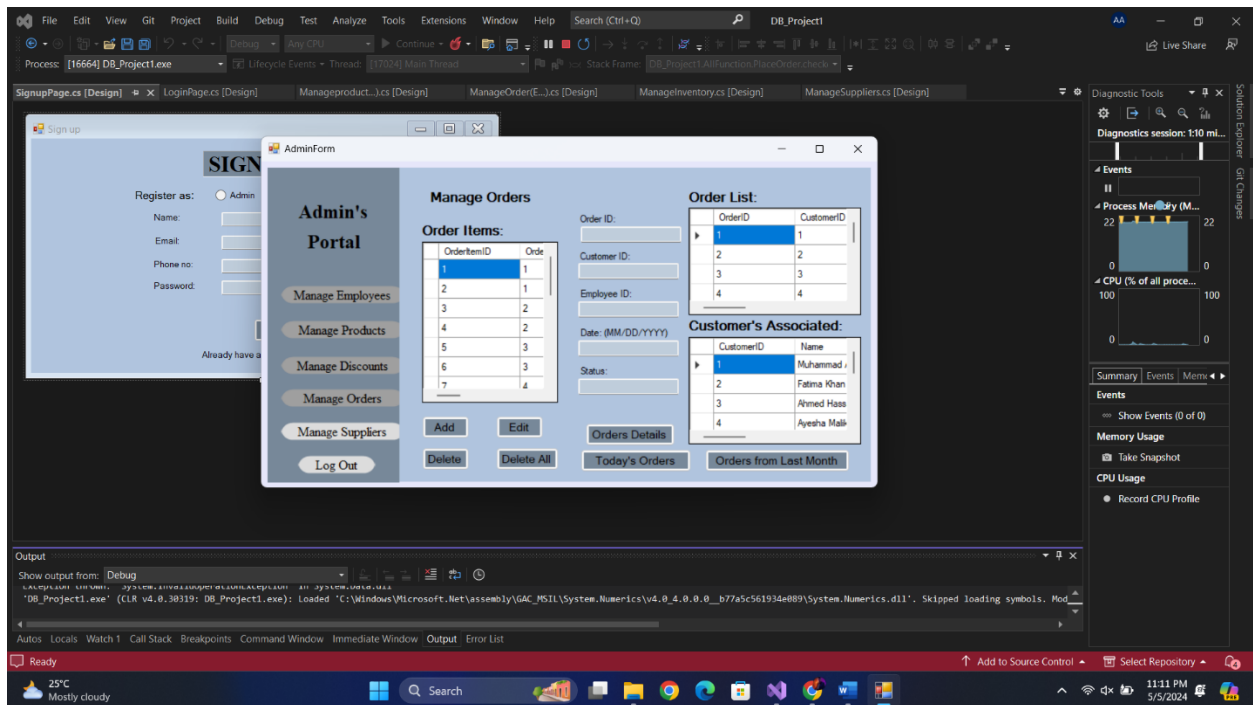

1- Module 1: Manage Employees:

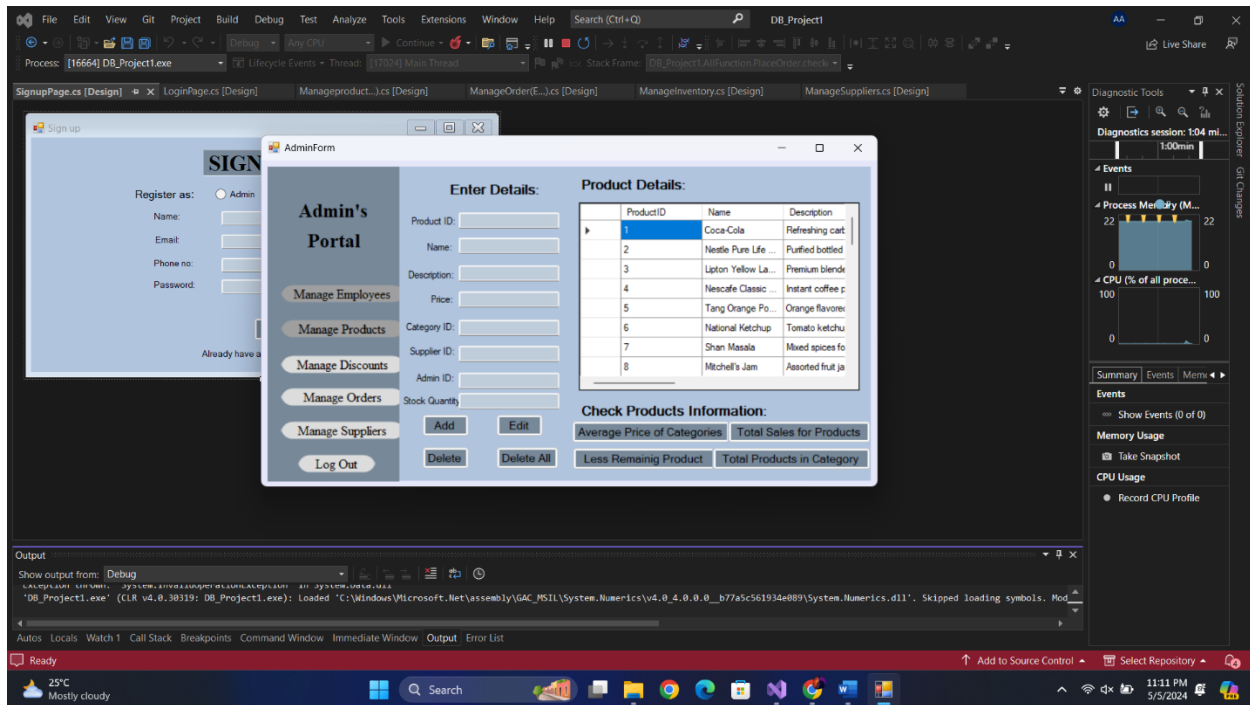

2- Module 2: Manage Discounts:

3- Module 3: Manage Orders:

4- Module 4: Manage Products:

The screenshot shows the Visual Studio IDE with the 'AdminForm' application running. The application has a sidebar menu with options: Manage Employees, Manage Products (selected), Manage Discounts, Manage Orders, Manage Suppliers, and Log Out. The main content area is divided into two sections: 'Enter Details' and 'Product Details'.

Enter Details:

- Product ID:
- Name:
- Description:
- Price:
- Category ID:
- Supplier ID:
- Admin ID:
- Stock Quantity:

Product Details:

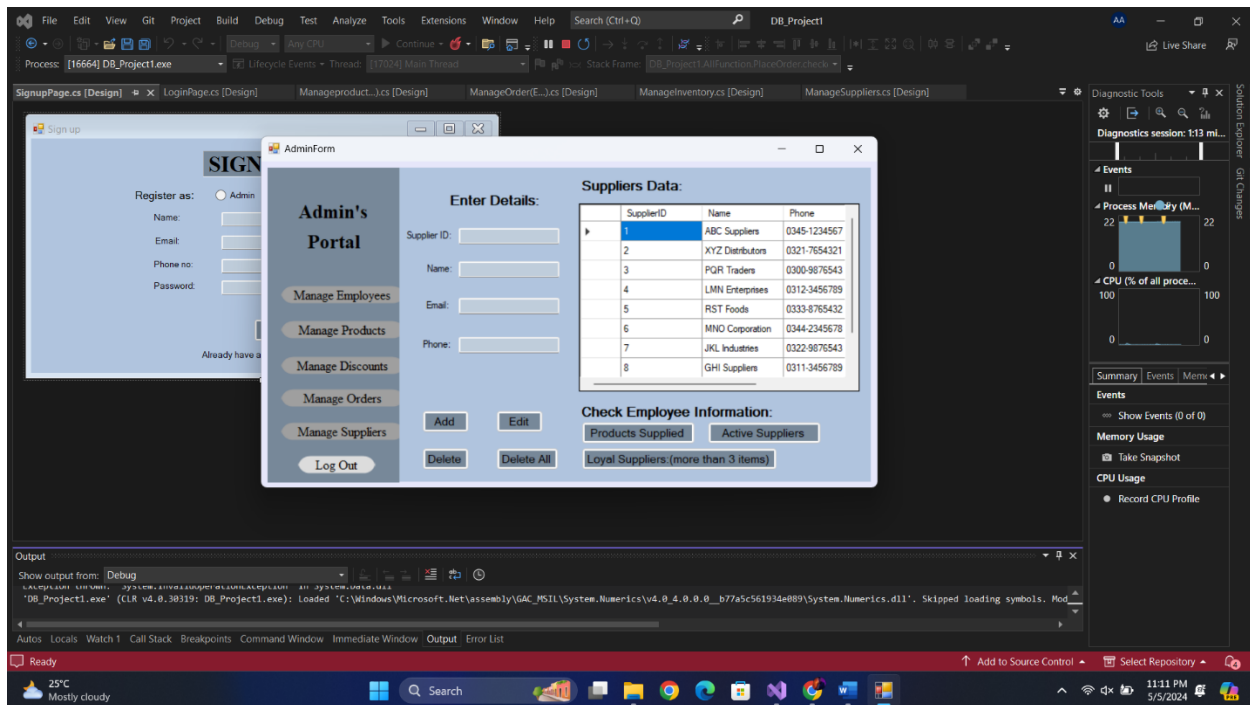

ProductID	Name	Description
1	Coca-Cola	Refreshing car...
2	Nestle Pure Life	Purified bottled
3	Lipton Yellow La...	Premium blende
4	Nescafe Classic	Instant coffee p
5	Tang Orange Po...	Orange flavore
6	National Ketchup	Tomato ketchu
7	Shan Masala	Mixed spices fo
8	Mitchell's Jam	Assorted fruit ja

Check Products Information:

- Average Price of Categories
- Total Sales for Products
- Less Remaining Product
- Total Products in Category

The bottom of the screen shows the Windows taskbar with the date 5/5/2024 and time 11:11 PM.

5- Module 5: Manage Suppliers:

The screenshot shows the Visual Studio IDE with the 'AdminForm' application running. The application has a sidebar menu with options: Manage Employees, Manage Products, Manage Discounts, Manage Orders, Manage Suppliers (selected), and Log Out. The main content area is divided into two sections: 'Enter Details' and 'Suppliers Data'.

Enter Details:

- Supplier ID:
- Name:
- Email:
- Phone:

Suppliers Data:

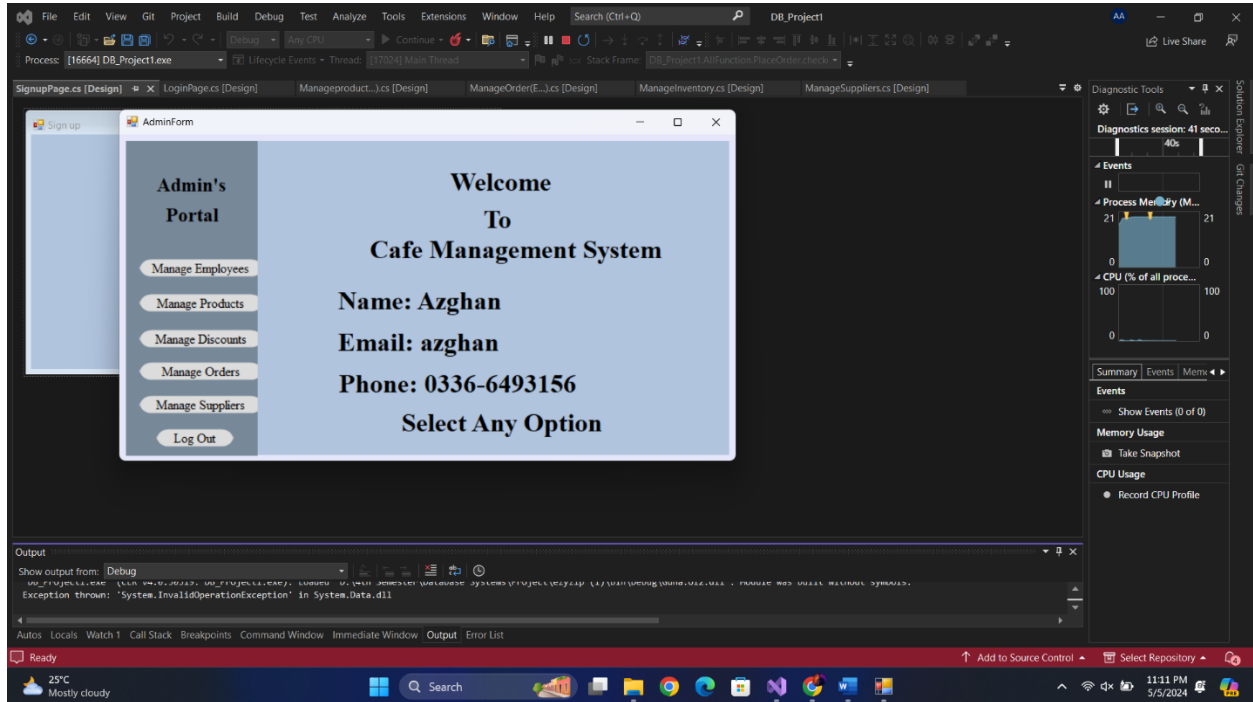

SupplierID	Name	Phone
1	ABC Suppliers	0345-1234567
2	XYZ Distributors	0321-7654321
3	PQR Traders	0300-9876543
4	LMN Enterprises	0312-3456789
5	RST Foods	0333-8765432
6	MNO Corporation	0344-2345678
7	JKL Industries	0322-9876543
8	GHI Suppliers	0311-3456789

Check Employee Information:

- Products Supplied
- Active Suppliers
- Loyal Suppliers (more than 3 items)

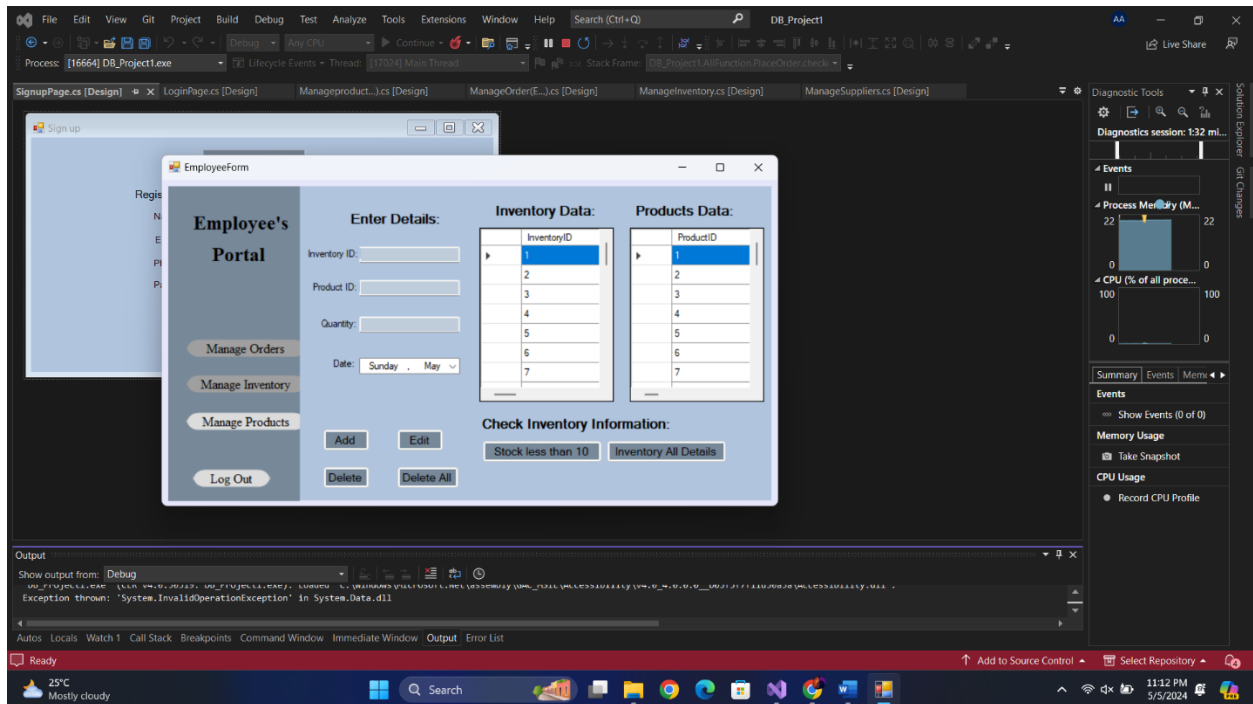

The bottom of the screen shows the Windows taskbar with the date 5/5/2024 and time 11:11 PM.

6- Module 6: Admin's Dashboard:

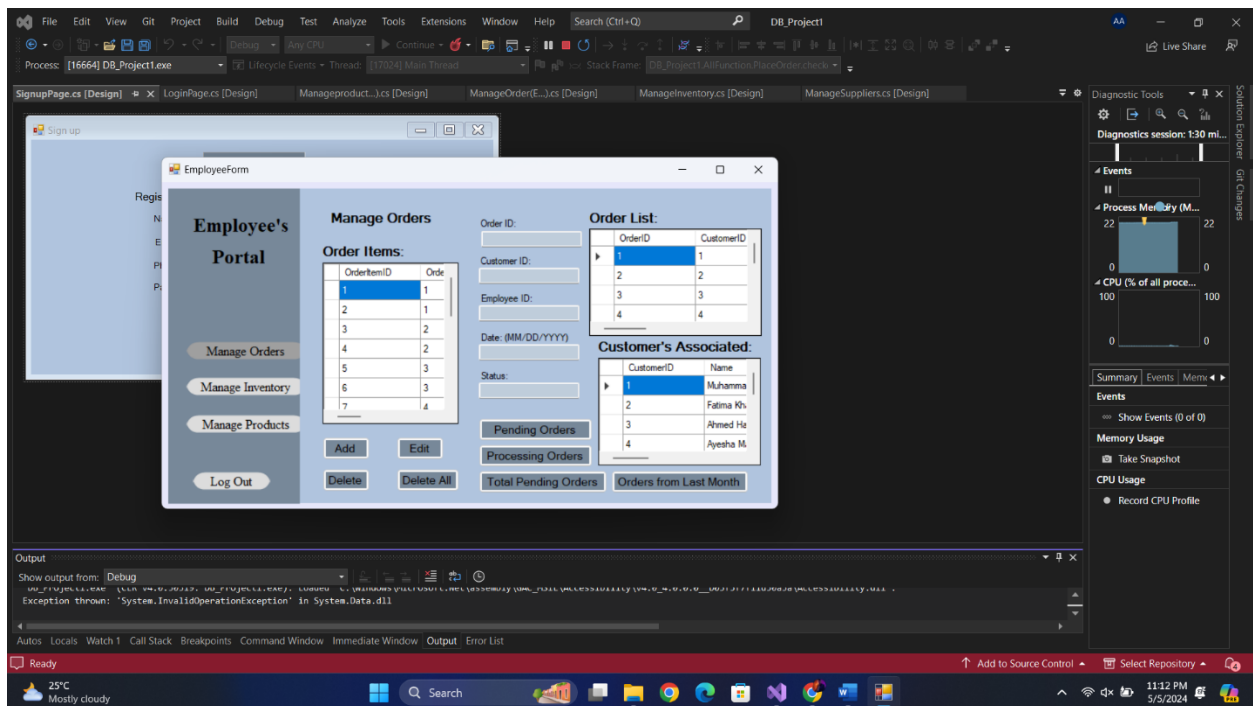

Employee's Portal:

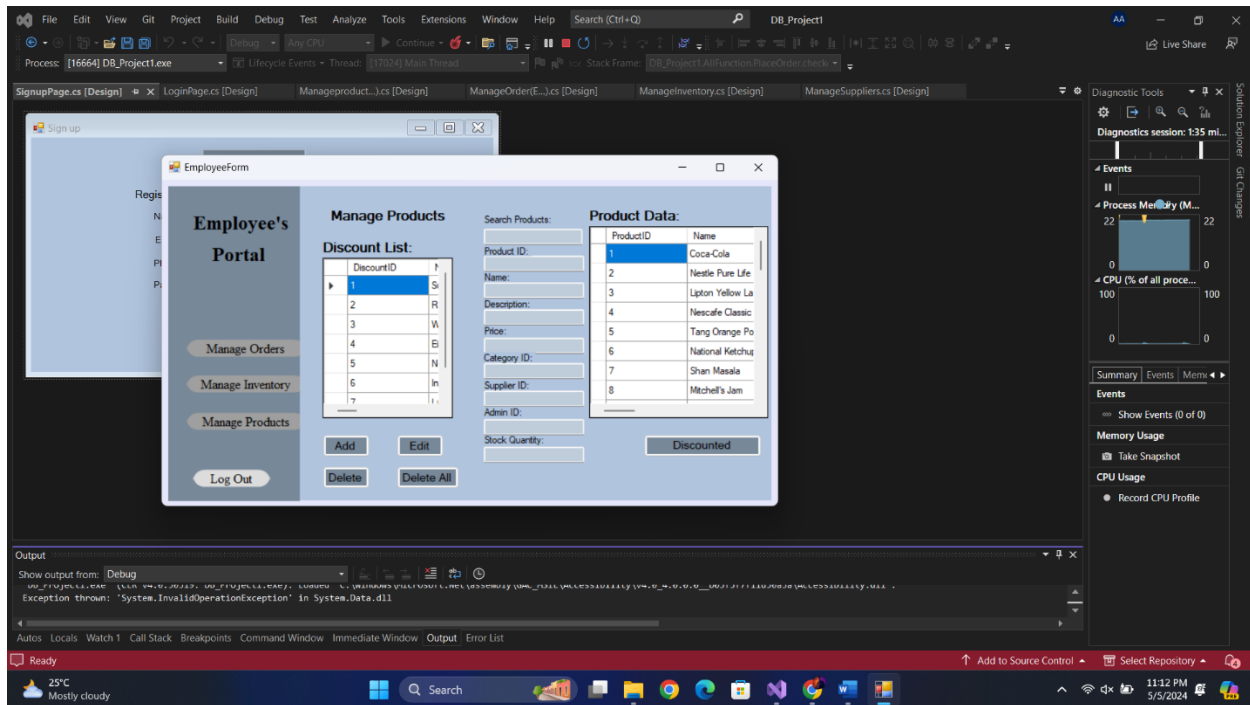

7- Module 7: Manage Inventory:

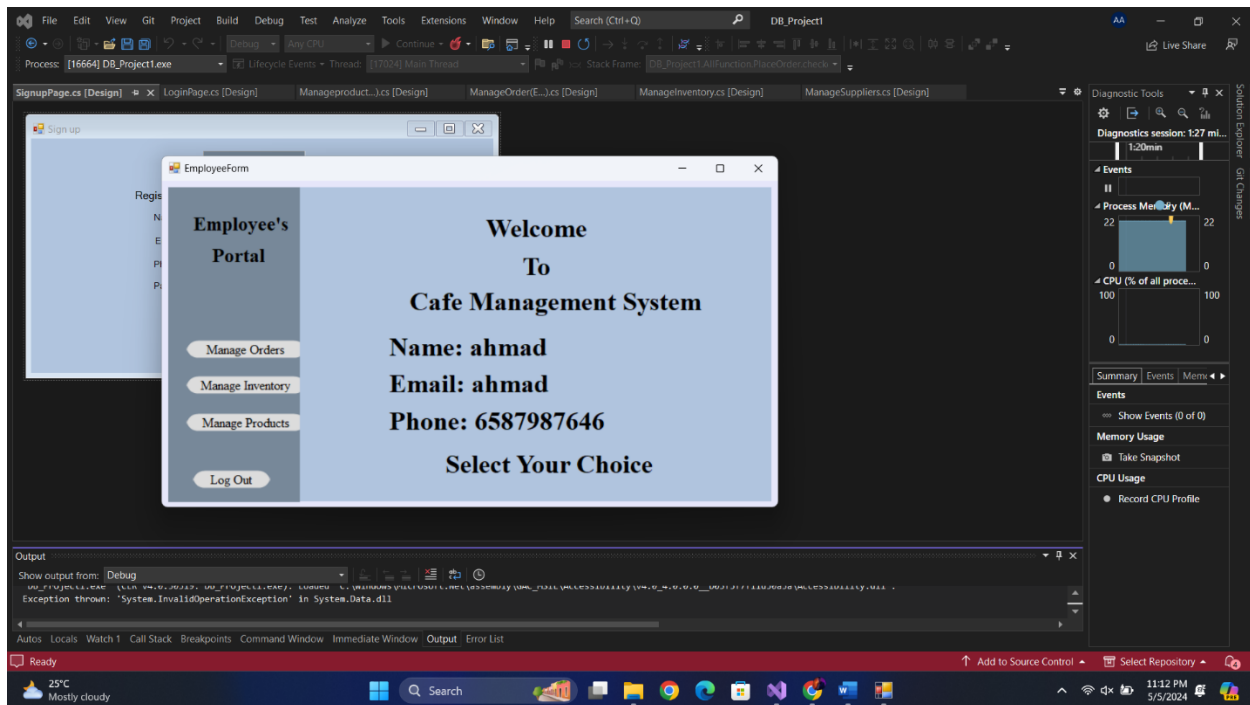

8- Module 8: Manage Orders(Employee):

9- Module 9: Manage Products(Employee):

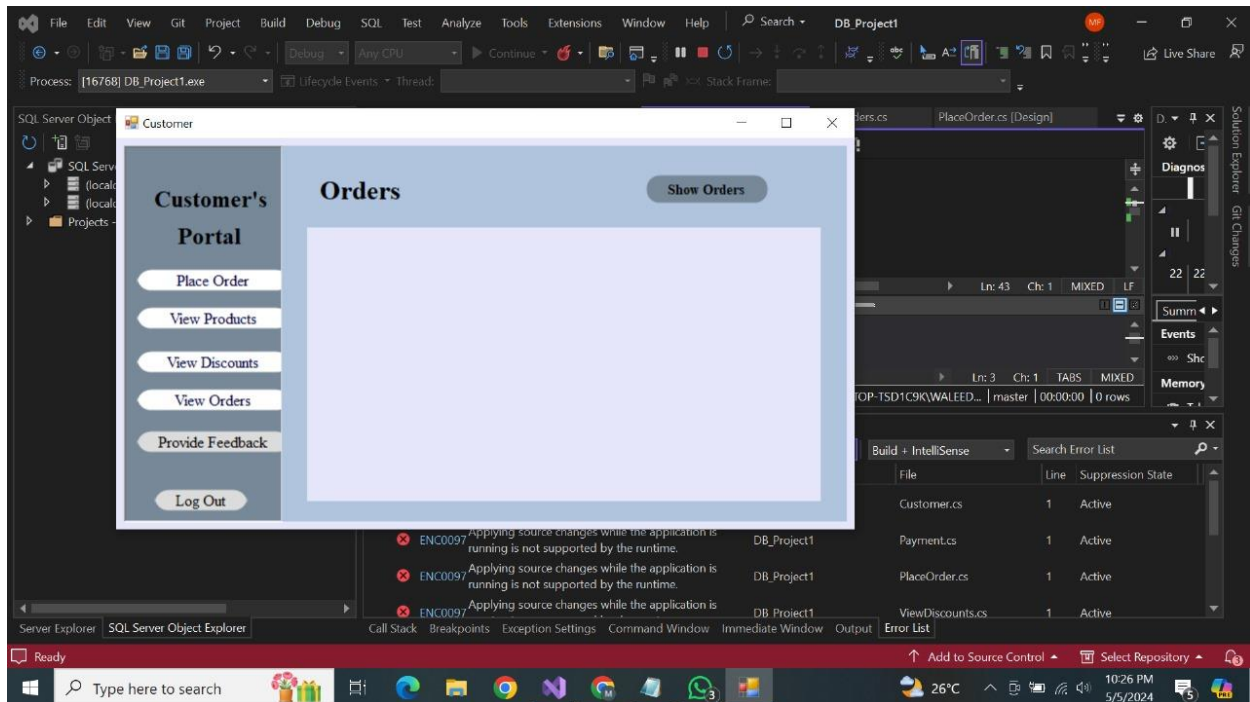

10- Module 10: Employee's Dashboard:

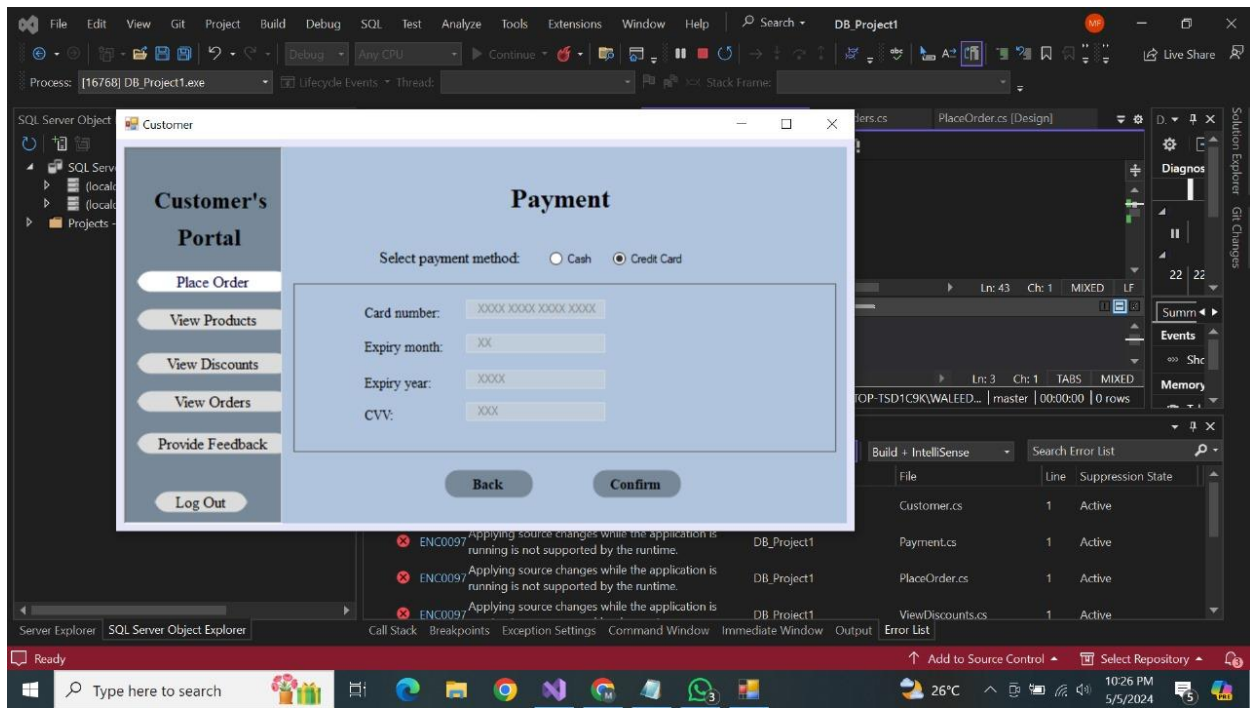

Customer's Portal:

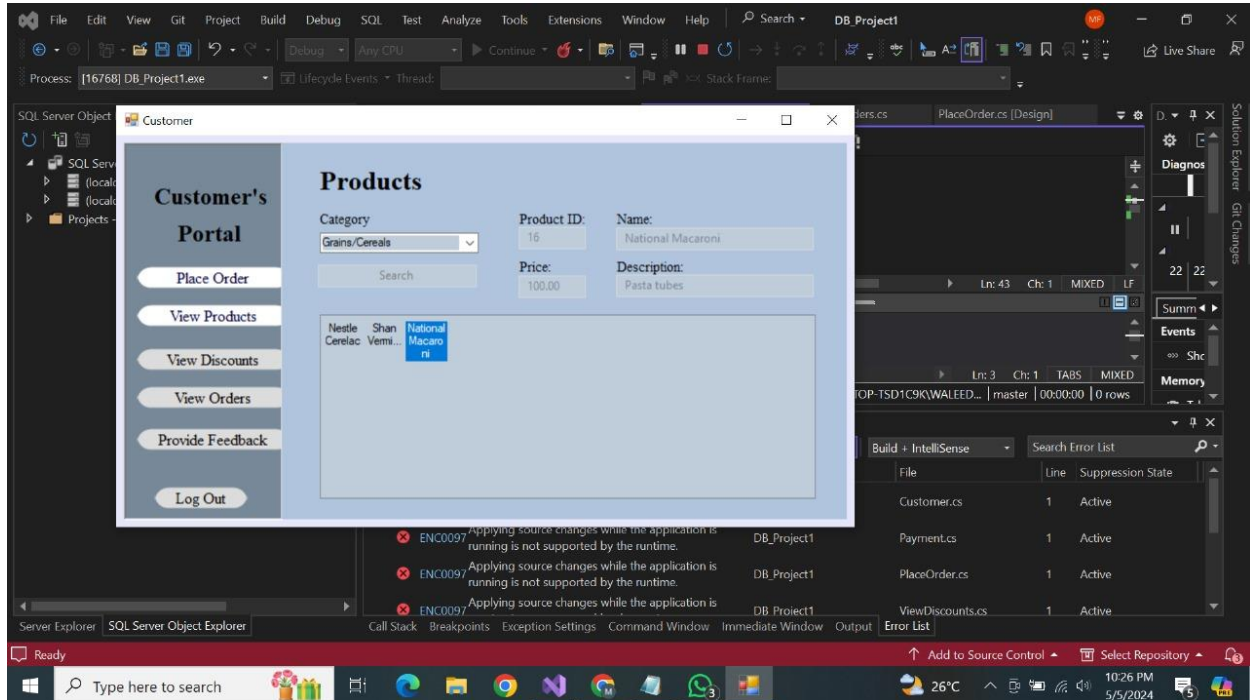

11- Module 11: Place Orders:

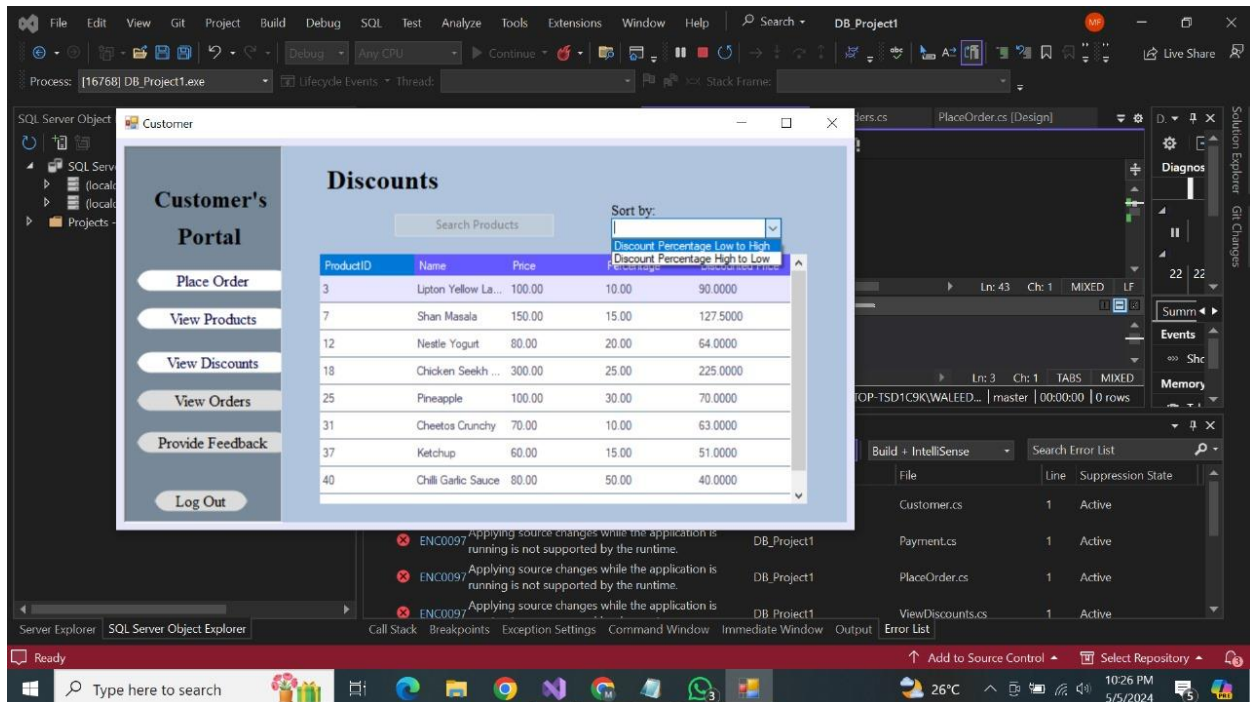

12- Module 12: Payment:

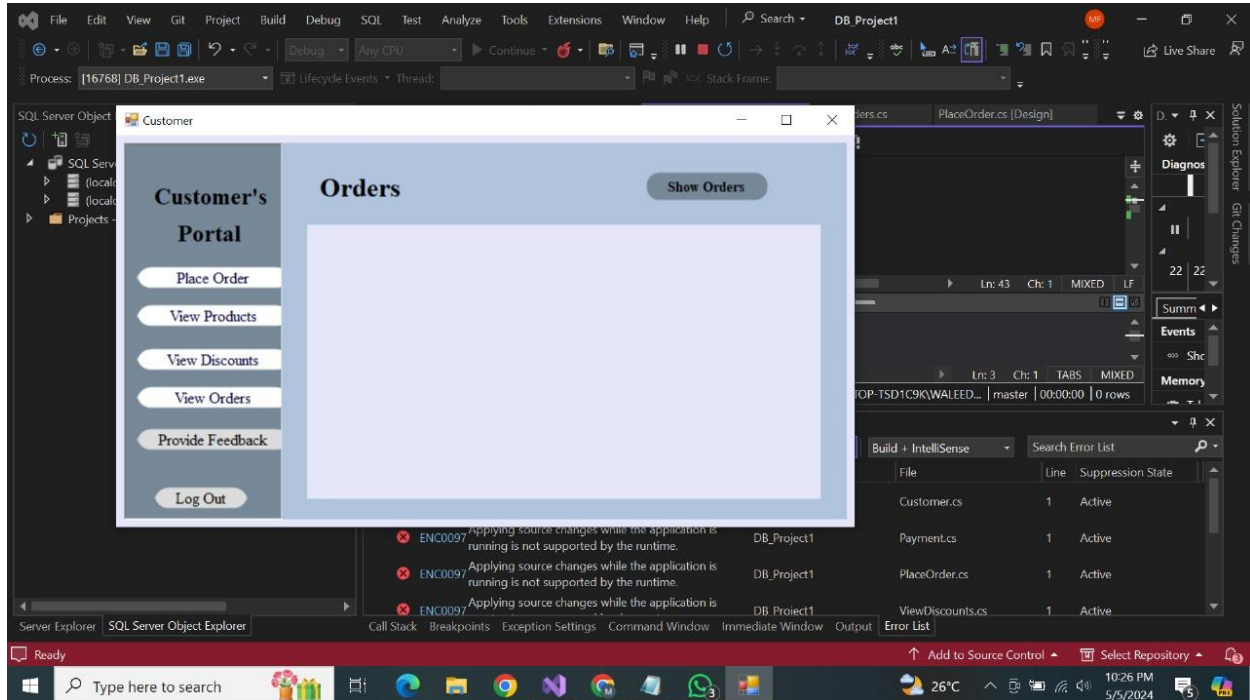

13- Module 13: View Products:

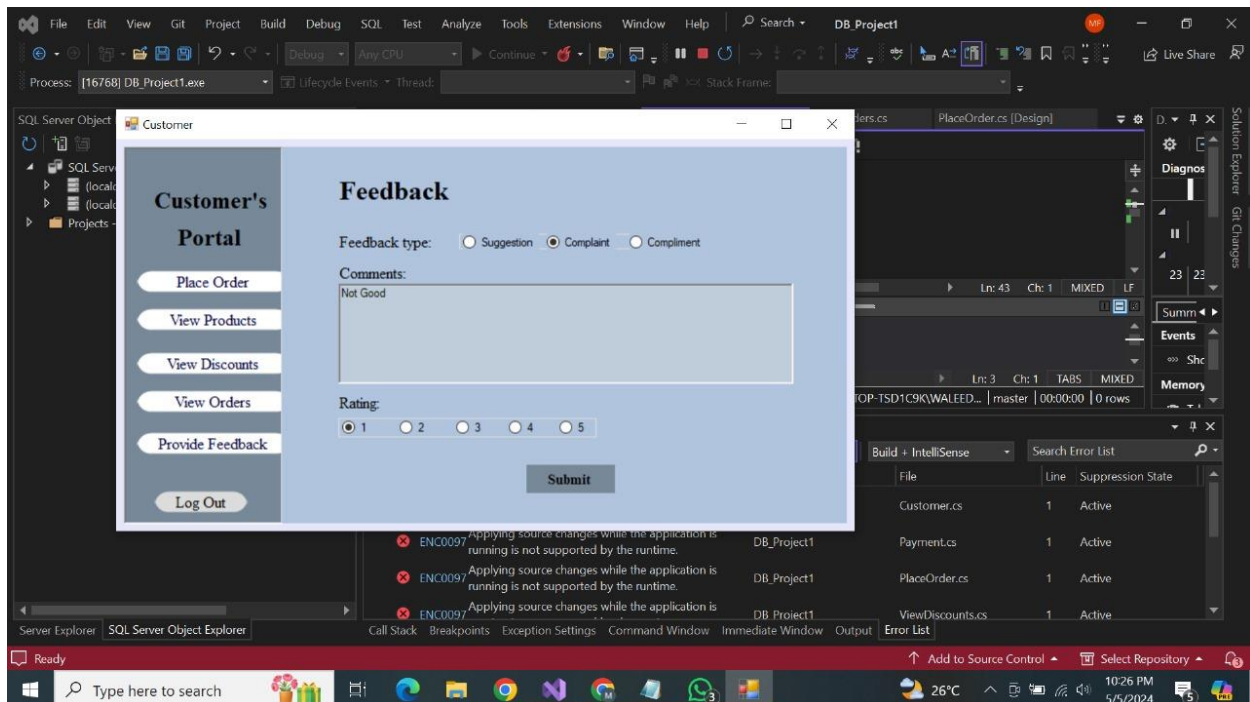

14- Module 14: View Discounts:

15- Module 15: View Orders:

16- Module 16: Provide Feedback:

17- Module 17: Customer's Dashboard:
